Re: Freedom of Information Request No. EPA-R2-2017-011649
Dated: September 19, 2017

Dear Ms. Naveendra:

Your request for information has been referred to this branch for response. We have searched the Resource Conservation and Recovery Act (RCRA) files and/or computer database as appropriate to respond to your request. In addition, you may also receive information from other program areas within this Regional Office.

We are enclosing a copy of the RCRA Facility File Index in an Excel Spreadsheet format for Hoffmann La Roche at 340 Kingsland Street in Nutley, New Jersey, and EPA ID No. NJD002191211. We are also checking with our EPA RCRA Project Manager to find out if the Project Manager would have additional documents. We are enclosing a copy of the RCRA Compliance Monitoring, and Enforcement Data Report regarding inspection information for Hoffmann La Roche in Nutley, New Jersey.

The approximate amount of RCRA information that we have in our RCRA file room is about 20 inches. One inch is equivalent to 250 pages.

Since we have much information, we welcome you to visit our office to review the RCRA files. We will arrange to make the files available to you. You can bring with you a portable scanner so that you can scan what documents you need. Kindly arrange your appointment with Mr. David Abrines of my staff at (212) 637-3043. The file offices are open between the hours of 9:00am - 4:00pm at the following address:

Room 1538, 15th Floor
290 Broadway
New York, New York 10007-1866.

Be sure to bring a copy of this letter when coming to our EPA file office, and make reference to the EPA ID Number NJD002191211.

If you decide that you cannot visit us, another suggestion is that you can select the information that you need from the RCRA Facility File Index Excel Spreadsheet. You can place an asterisk next to the documents that interest you, and then e-mail the information to abrine.s.david@epa.gov. Afterward, Mr. Abrines will review the documents that you selected on the indexes, and contact you concerning the final cost. Keep in mind that if you decide to work from the enclosed Excel Spreadsheet, and not visit our office, you may not be looking at all of the documents that we have. Also, because of the amount of information that we have for this site, your costs will exceed the fee limit of \$25.00. We can discuss the costs at a later time, after you decide what you would like us to do.

There may be other RCRA documents that the EPA Project Manager might have that are not included on the enclosed index spreadsheet which is why we recommend that you visit our office to review what we have.

We also have one document for Hoffmann La Roche in Nutley, New Jersey, which may be considered confidential and/or marked as confidential. We recommend that you first review the documents that we have. If after reviewing the documents and you still have an interest in pursuing the regulatory process to request disclosure of the confidential document, please inform Mr. Abrines at the above number.

In addition, to the RCRA information described above, we have about seven inches of air permitting information for Hoffmann La Roche in Nutley, New Jersey. Unfortunately, we do not have a Facility File Correspondence Index for the air permitting information. If you decide to visit us, we will have the air permitting information made available for your review as well.

For information regarding solid waste, you will need to contact the State of New Jersey at the following address: Mr. Robert Confer, Bureau Chief, New Jersey Department of Environmental Protection, Bureau of Landfill and Hazardous Waste Permitting, 401 East State Street, CN 414, Trenton, NJ 08625-0414, Telephone # (609) 984-6985, and Fax # (609) 633-9839.

Please include the above referenced request number on any inquiries regarding this response. We wait to hear from you as to how you want us to proceed with your request regarding Hoffmann La Roche, Nutley, New Jersey.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Adolph S. Everett". The signature is fluid and cursive, with the first name "Adolph" being more prominent.

Adolph S. Everett, P.E.
